

Sixth Form at NEWA

Achieving Excellence, Everyday.

Welcome

The partnership we create in Sixth Form will ensure that we continue to grow together. It's not about who you are now, it's about who you'll become.

We will facilitate and encourage a learning experience which provides students with the opportunity to achieve their personal best. Our values of Pride, Endeavour and Collaboration will give students the currency needed to access and be successful in life.

We want the best for you so all we ask is that you turn up and give it your best. In return, we'll guarantee an incredible journey and the best life has to offer you whether that is in the world of work, at university or in an apprenticeship.

Sixth Form vision

Our Sixth Form students experience a knowledge-rich curriculum which provides them with cultural and societal frameworks with which they can understand and engage with the world in which they live.

Our students engage in academic reading, extended writing, debate and oracy, and theoretical thinking, so that they develop the knowledge they need to achieve excellence. This is complemented by targeted enrichment opportunities which shape pupils' aspirations for the future and develop them as global citizens who value industriousness and endeavour.

Our vision allows for more opportunities for student leadership roles and mentoring systems that raise aspirations while also developing confidence and character through the following values:

You will be proud. Proud in your appearance, proud of your work and proud to attend a 'Good school'.

To achieve success, both personally and academically, it's so important that you display endeavour in order to flourish and achieve your potential.

You will collaborate as part of a team. This team creates leaders who are positive role models for both the younger members of the school but also for members of the local community.

By reading this book, we know that you are serious about your post-16 journey and getting the best out of life. You'll continue to grow as a person at NEWA in an industrious and safe environment - you'll become an enthusiastic learner and we'll develop mutual respect for one another through our shared determination to succeed.

This is the foundation where you'll start to build the next important stage of your life. In order to succeed, you need to believe in yourself and our faith in you and commitment to your future will drive us both towards your goals. We'll share your pride when you score goals, get results, on your first day at university and when you start work. We'll celebrate you, every step of the way.

Pride

Endeavour

A photograph of a classroom scene. In the foreground, a young woman with long brown hair, wearing a white shirt and a blue lanyard, looks towards the camera with a slight smile. Behind her, a young man with dark hair, also in a white shirt and tie, is looking down at a book. To his left, another young man with blonde hair and red-rimmed glasses is writing in a notebook with a blue pen. In the background, a woman with dark hair and glasses, wearing a black jacket, is looking down at a book. They are all seated at a long wooden table with several open books and papers.

We want you to achieve through industriousness and integrity. That doesn't mean that we are afraid to fail because at times failing is the only way to get to the top level. We'll support you, pick you up, dust you down and get you back on track.

Just give us 100%, all of the time. It's a no excuses culture here in Sixth Form but that doesn't mean we don't listen. We figure problems out together and go again. Doesn't matter if you are learning lines for a play, raising grades, helping others or revising for an exam - we always try our best and we don't forget that.

It's not about us. You have a whole team right behind you and we all work together to make sure you succeed. This stage of your life is about options and opportunities and making the most of both of them. We'll spend our time together studying for now and planning for the future. We'll do whatever it takes to ensure that at the end of your journey with us, you have the skills to succeed as well as a firm grasp of what you want from life.

Above all, you'll be happy and confident and ready for the world around you and all it has to offer.

Collaboration

Our mission is clear,

with the highest standards at the core of everything we do, we will empower our students with the knowledge, skills and opportunities to achieve excellence, every day.
