

# **My School Pledge**

## ***During my time at NEWA...***

1. I will participate in educational trips, whether they are nearby, across the country, or even around the world. These experiences will help me better understand the world and introduce me to various cultures.
2. I will get involved in various activities that the school provides outside of regular classes, as these opportunities will help me grow as an individual.
3. I will work hard to become a more confident and happier young person and I will engage in extracurricular activities. This could include joining the school council, participating in public speaking events and building positive friendships. I will also remember that asking for help when I need it is a sign of strength, not weakness. By taking these steps, I can grow and develop into a well-rounded individual.
4. I will maintain an active and healthy lifestyle by participating in physical education activities outside of school. This includes joining sports clubs, whether they are organized by the school or in the community, attending live professional sports events and engaging in initiatives that promote healthy living.
5. I will develop my character by demonstrating the non-negotiables such as politeness and manners, kindness and empathy to others, excellent attitude to learning in the classroom and caring for others.
6. I will broaden my horizons by making sure that I take the opportunities given to me to visit colleges, universities and any other further educational establishments.
7. I will form opinions on topics and share my opinions via debate in school or in structured debate outside of school.
8. I will develop a 'growth mindset' by learning that hard work rather than talent is the key to my success.
9. I will make sure that I am fully aware of the career opportunities available to me after leaving school so that I have something to aspire to.
10. I will understand how to stay safe from abuse and exploitation whilst interacting with technology by making sure I follow the school rules relating to the use of technology; take part in e-safety presentations and workshops; and use my mobile carefully considering how it may impact others.
